There is nothing like the joyful giggle of a baby! Babies are special. They bring with them great expectation, hope and joy. This year, we find ourselves needing that kind of expectation, that kind of excitement, the kind of awe we feel when we hold a newborn for the first time. We need the journey to Christmas to be one of joy and hope and impatience. We need to rush to the manger and cry with happiness at that baby. As we all cope with a culture of anxiety and fear, as we live through a constant news-cycle of pandemic and polarization, as we celebrate Christmas together, we need Advent to remind us of the joy and hope we have in Christ.
